DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, drawn to a whirlpool bathtub.

Group II, claim(s) 10-13, drawn to a valve device.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is directed to a whirlpool bathtub with a recess covered by an apertured bottom element that is centrally attached to the bottom tub wall, which has the special technical feature of allowing access for mechanical cleaning. Group II is directed to a valve device with two air inlets, a water inlet and outlet and a valve body for closing the water outlet, having the special technical feature of short tubing lengths. Groups II and I do not share any technical feature.

3. A telephone call was made to Arthur Garrett on 15 September 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
